

Root Rx

the power of nature

ANALYSIS	
Soluble Potash (K ₂ O)	5%
Organic acids	1%

Application	Rate	Comments
Soil	2.5–10 gal/acre or 7.5–29 oz/1000 ft ²	<ul style="list-style-type: none">› Spray on and immediately water in lightly into the root zone› Fertigation applications must be applied in a wave application and a concentration of no less than 0.5% by weight› Avoid over-spray onto highly sensitive plants› Accompany the application with fertilizer root growth promoters

PRODUCT OVERVIEW

- › Enhances root health and root growth
- › Improves soil biology
- › Generally compatible with other materials

CHEMISTRY

- › A proprietary botanical extract from *Juglans niger*
- › Semi-clear liquid

APPLICATION GUIDELINES

- › Proper application rates and frequency should be determined by specific conditions and plant requirements
- › Proper application is critical to efficacy. Consult with an experienced agronomist prior to application
- › Always jar test before adding to a spray tank or injection tank
- › Spray and fertigation applications should be made with sufficient water, 50 mesh screens, and agitation throughout the application
- › When tank mixing with other chemicals, it is the responsibility of the end-user to assure compatibility and safety
- › Always consult your agronomist
