TurfRX Fe+ - Is a dry soluble product, developed as an easy to use formulation that is highly compatible with most fertilizers and foliar sprays.

APPLICATION RATES

Application	Rate	Comments
Foliar spray	1-3 lbs/acre or 0.4-1.2 oz/1000 ft ²	<ul style="list-style-type: none"> > Maintain a 1% solution by weight or less if material might come in contact with highly sensitive plants; includes all other TurfRx Products > Do not exceed 2 lbs/acre if applied in less than 25 gal/acre
Soil & fertigation	1-6 lbs/acre or 0.4-2.2 oz/1000 ft ²	<ul style="list-style-type: none"> > Apply with a minimum of 15 gallons of water/acre > Higher rates should be fertigated or followed by a light overhead irrigation post-application

APPLICATION GUIDELINES

- Use extreme caution when applying foliar nutrients to fruit that may be susceptible to marking.
- Avoid using Redox Turf foliar nutrient fertilizers with penetrating surfactants on fruit that may be susceptible to marking.
- Proper application rates and frequency should be determined by specific conditions and plant requirements.
- Apply during periods of high micronutrient demand.
- Always jar test before adding to a spray tank or injection tank.
- Applications should be made with sufficient water, 50 mesh screens, and agitation throughout the application.
- Do not spray on highly sensitive plant material at a rate of more than 1% by weight.
- When tank mixing with other chemicals, it is the responsibility of the end-user to assure compatibility and safety.
- Poly in-line filters should be replaced with stainless steel, if possible.
- Always consult your agronomist.

AVOID CONTACT WITH SKIN, EYES OR CLOTHING.

In case of contact immediately flush skin, eyes or clothing with plenty of water for several minutes.
